

OKT/COLSON COMPANY

May 29, 1981

EPA Region 5 Records Ctr.

353556

Mr. Karl J. Klepitsch
Chief of Waste Management Branch
United States Environmental Protection Agency
230 South Dearborn Street
Chicago, Illinois 60604

Dear Mr. Klepitsch:

I am writing to you at the suggestion of Mr. Glenn D. Savage, Jr. of the Illinois Environmental Protection Agency.

Mr. Savage inspected our facility in Paris, Illinois on Tuesday, May 26, 1981. The conclusion Mr. Savage reached is that the OKT/Colson Company's waste generation would classify it as a low quantity generator not subject to United States EPA or Illinois EPA regulations.

Accordingly, it was Mr. Savage's suggestion that I write to you, relay his advice to you, and request that the OKT/Colson Company be removed from the United States EPA program. Mr. Savage further suggested that your office can contact his office for confirmation of the above.

Thank you,

OKT/COLSON COMPANY

John Jedd
President
